A wooden cart with large black tires is the central focus, filled with various items: several woven baskets, a lantern, and two vases of colorful flowers. The background shows a rustic wooden building with a corrugated metal roof and a green field under a cloudy sky.

Agro-eco Tourism and Volunteering in the Farm

Take a holiday in favour of rural development!

You are tired of daily concerns and a monotonous and boring life
You want to turn the Wheel of Time and live a calm and serene life

There is an interesting suggestion for you!

You can be hosted at the houses of farmers who are engaged in certified organic and sustainable farming and whose comfortable houses are situated in the lap of nature. It's a unique opportunity for you to live a real village life, to pursue farming, to have a pleasure of breathing fresh air and to enjoy ecologically clean foodstuffs. It is also a chance to get familiar with the

Armenian traditions and the cuisine. The only thing you need is to have a wish, and we assure you that our hospitable farmers will do their best to realize your wish.

The "Rural Sustainable Development" Agricultural Foundation has a big army of farmers in different marzes /provinces/ of our republic who are engaged in sustainable agriculture. We can offer you two types of packages: packages that are only for a rest and packages for a rest combined with work. You can choose any package you like.

Agro eco tourism (farm-based tourism) invites the tourists to experience working in farms, and even much more. Traveling with us you will help the local farmers to build a sustainable future.

We guarantee that during your stay in Armenia you will be provided with:

- ✔ Meeting at and transfer from the Airport Zvartnots
- ✔ Walking tour in Yerevan and dinner at some cosy place
- ✔ Accommodation in Yerevan, if needed
